Active and inactive patients     Export     Execute	Close

There are a number of different analysis to choose from. You can view all under six's by choosing Under6\_all. The first Analysis on the list will return all patients under six with the item 'problem' or medical history containing Asthma. You may not have too many of them so the third analysis 'Under6-Asthma\_Search will be the most useful. This will search for all patients under six with a problem or medical history item containing 'Asthma' or a repeat or drug prescription containing Anti-Asthma Drugs by ATC Code.

#### **Asthma-Cycle of Care Registration**

The next step would be registering patients, there are a couple of ways to do this, they can be registered from the analysis, from the patient selector, or they can be registered when the file is open.

The following steps will show you how to register your patients from the analysis.

Firstly, find the patients you wish to register by running the analysis (as explained above).

ad Extrator	Callenhan Lordon		5	_ TORICAL			(e)))
User database analysis : Un	der6_Asthma_Search				-0-0-		
2030 0 D						*	
Result Query details						h char v Comment content reference 4	
sumame ASTHMA	first name Class	16x	date of bith	doctor in charge		RY ODA	
- Ind Colors	com a	0.00		DE HUTT D'UTTODE		RYODR	
						RY O'DR Nursing Home KA RY O'DR Drugs Demo - Pe

The Cycle of Care Registration screen will open and contains the following fields:

Cycle of care registration	×
Registration of the patient with the Cycle of Care : Asthma Baby Bloggs	3
Enter the online registration date to confirm the patient registration Online Registration date :	
Patient GMS number : Ethnic Group : 1234567a	•
This patient has been diagnosed with asthma  • Yes  No  Date of diagnosis:	
The patient can be registered	
ОК	Cancel

**Online Registration Date**: The date the patient was registered with the PCRS online.

Online Registration-A link to the PCRS website to register the patient

Patient GMS Number: This has been taken from Health one if it has been recorded

Ethnic Group: The Ethnicity of the patient. This is a requirement from the PCRS

**This Patient has been diagnosed with Asthma**: This is set to yes if there is an item with a problem or medical history containing 'Asthma'.

This information button tells you what the recommendations are as regards making a diagnosis of Asthma.

The Date of Diagnosis: The Date of Diagnosis has been taken from Health one.

Once you complete the fields above, Health one is going to record the fact that you have registered the patient online. But Health one does not know you have registered the patient online unless you tell it you have. So the form allows you to tell the system the patient has been registered online, and the date the patient was registered.

#### **Registering Patients Online**

You must do this on the PCRS website. You must have a certificate on your machine to allow access to this. If you are having problems with this, please contact the Health one support team on 014633099 and they will help you with this.

To register your patient online or to check and see if the patient has previously been registered on line, click the 'online registration' link.

Cycle of care registrat	tion
Registration of the patient with the Cycle of Care : I Joan Baez	Diabetes 🕄
Enter the online registration date to confirm the patient regi Online Registration date :	stration
Patient GMS number : 7800614B	Ethnic Group : Caucasian
This patient has been diagnosed with Type 2 Diabetes • Yes  • No Date of diagnosis : 01/08/1996	0
The patient can be registered	
	OK Cancel

This will only log you into the PCRS website if you have the required certificates as described above.

User ID: <u>87807.06</u> Email address on your account is	s not unique ( <u>Change email.</u> )		Feidhmeannacht na Seirbhíse Health Service Executive	e Sláinte

Registration Type Diabetes (Type II)	C Registration Date 14/09/2015	٥	¢	o
Q				

Health one will copy the patients GMS number into the Medical Card Number field. If the patient has been previously registered, this will be displayed with the date of registration, if they have not been registered, this screen will allow you to register the patient online. In the example above, the patient has been registered previously on the 14/9/2015.

I will now enter this date in the 'Online Registration Date' field.

Cycle of care registrat	on ×
Registration of the patient with the Cycle of Care : D Joan Baez	iabetes 📢
Enter the online registration ate to confirm the patient regis Online Registration date	tration
Patient GMS number : 7800614B	Ethnic Group : caucasian
This patient has been diagnosed with Type 2 Diabetes ( Yes C No Date of diagnosis : 01/08/1996	
The patient can be registered	
	OK Cancel

I have now told Health one the date patient was registered online.

#### **Registering Patients in Health one**

I will now continue to populate 'Cycle of Care Registration Form'. Populate any fields that have not been populated by Health one automatically.

Once I click 'OK' at the bottom, I will be prompted with a message that tells me this patient has been registered successfully. Once I click 'OK'. I have now successfully registered the patient in Health one.

This has now put an item called 'Cycle of Care' containing 'Asthma' in the Administrative chapter of the patients file.

This registration in Health one is critical if you are going to send good data back to the PCRS after a year.

**Previously Registered Patients Online** 

If you have previously registered your patients online, and would just like to register them in Health One, you can select a number of patients either from the patient selector or from your analysis.

Click and drag to select the list of patients you wish to register in Health one. Right click as before, choose 'Cycle of Care Registration' and 'Asthma'.

Result Query details

#### **Registering Patients during Consultation**

When you are in the patient file, and you have begun a consultation, and added an item containing 'Asthma', you will then open the Mediform 'Under6 Asthma'. If the patient has not previously been registered you will be prompted to register them prior to completing the mediform.

0	doyle pat - 13/04/2015 - M - 8 month

20/04/2015 Dr. Admin Admin	O pou want to register the patient now in Health one ?
	Yes No
	30/04/2015 117 Dav(s)   General practice [Dr. Admin Admin

You will then follow the steps as before to complete the registration process.

Cycle of care registra	tion
Registration of the patient with the Cycle of Care : pat doyle	Asthma 🕄
Enter the online registration date to confirm the patient reg Online Registration date :	istration
Patient GMS number : 1234567a	Ethnic Group : caucasian
This patient has been diagnosed with asthma • Yes C No Date of diagnosis : 23/12/2015	Ð
The patient can be registered	
	OK Cancel

Once registered, you will now have access to the Under6 Asthma Mediform.

## Under 6 Asthma Cycle of Care-Clinical Recording

If you have an Under 6 Asthma patient and you decide it should be recorded as part of the cycle of care, begin a consultation as normal, and choose the Under6 Asthma Mediform.

MediFo	rm selector
<u>F</u> ind under	<b>⊘</b> -
MediForms	Details
Under 6 Consult Under6 Asthma Under6 Periodic Assessments	Author: PQU/ROD Version: 4 Date: 29/11/2015 16:06:51 Filename: Under6 Asthma.frm
My Forms All Forms	Description Dataset for periodic assessments (Age 2 and 5 years)
🔲 Leading	OK Cancel

As explained above, if the patient has already been registered, you will be able to access the mediform, if they haven't, you must follow the steps above to complete the registration process.

The mediform displays all the minimum information required by the PCRS for the cycle of care.

Under 6 years - Asthma Cons	sultation – 🗆 🗙
Under 6 years - Asthma Consultation Submit an agreed dataset to the HSE annually relating to child pat years with a confirmed diagnosis of asthma	tients aged between two and six 🦃
Has this child patient been diagnosed with asthma as C y defined in the under 6 contract definitions ?	yes 🔿 no 🛛 🔞
GMS number 1234567a	
Name : pat doyle	
Gender: 🔎 male	C female
Date of Asthma review : 23/12/2015	•
Review of treatment : Cy	yes O no
د Check of compliance with medication	yes C no
Check of inhaler technique	yes O no
Patient education provided to parent / guardian (difference between releiver, and controller / self monitoring or symptoms)	yes 🔿 no
Asthma self management plan discussed with C y parent / guardian	yes O no
Influenza vaccine offered (for moderate / severe C y asthma)	yes O no
Printed asthma management plan given to parent(s)	yes C no
Smoking status of household : O yes O	no ⊂ N/A Yes = One or more
if yes, brief intervention of GP or nurse O yes O	no C N/A smoke in the household No = No one smokes
<u>Asthma control</u> Asthma Self Management Plan 2013	<u>O</u> K <u>C</u> ancel

Once populated it completes the minimum amount of data required by the PCRS. Once you click OK, the data will be displayed in Health one as below and this is the data that will be exported at the end of the year.
